

## EMINENCE FACIAL PEELS:

### **Yam and Pumpkin Peel: €85**

This age defying collagen boosting peel uses gentle enzymes, nature's Glycolic, Lactic and Salicylic Acid to boost collagen and refine the skin. Wrinkle depth is reduced, and fine lines are faded. Hyperpigmentation is lightened and lifted, while the texture and dry skin is smooth and replenished. The skin is left firm with increased elasticity

### **Blueberry Detox Firming & Stimulating Multi Acid Peel: €85**

This powerful potent skin heating multi acid is positively stimulating. The high level of natural fruit acids blended with the herbal heat penetrate the skin to detoxify and bring renewed oxygen and nutrients to the skin. Skin is infused with powerful potent skin and pore tightening anti-oxidants. The tingling hot sensation of the active ingredients work to renew scarring, plump deep lines and wrinkles, and even out mature sun damaged skin types. Your skin will be completely transformed.

### **Arctic Berry Peel & Peptide Illuminating Skin Peel: €95**

Treat yourself to a premium anti-aging peel using luxury organic ingredients sourced from the Arctic for the ultimate in skin renewal. Deep exfoliation combined with a botanical peptide infusion will stimulate collagen production to leave you with an instantly younger- looking appearance. This results-orientated peel layers three uniquely formulated products that work in harmony to reveal new level of luminosity to your skin, while targeting uneven skin tone, fine lines, blemished and dull lifeless looking skin.

### **Mangosteen Gentle Resurfacing Peel: €100**

With the Combination of LED treatment, the advanced facial treatment uses the power of Lactic Acid Complex paired with antioxidant-rich "super fruit" Mangosteen to elevate your complexions natural glow by resurfacing and refining skin tone without irritation or down time. With the addition of our VitalSkin Exfoliation Peels, LED and stimulating herbal heat this personalised peel will deep cleanse, minimise pores, rejuvenate, plump, hydrate and treat the most sensitive of skin types
